Desirable Men: How to Find Them Nancy Fagan

The way to a man's heart is through his stomach? That's as archaic as telling women they need to follow a bunch of rules to get a man. According to Dr. Romance, there's *more* to finding Mr. Right than just a bunch of rules. In her new book, *Desirable Men: How to Find Them*, author Nancy Fagan, aka Dr. Romance, introduces a formula that leads modern single women of all ages on a journey to finding someone who will love, cherish and treat them right. Dr. Romance's formula forces women to think for themselves. It doesn't force them to follow rules that don't fit their personalities. Before sending singles into the field, Dr. Romance arms them with exercises that evaluate *why* they're always attracted to a certain type of man, whether they should continue with this type, and what other types might better meet their needs, physically and emotionally. The Dr. Romance formula turns single women into *intelligent* desirable men seekers by: Teaching how and when to "turn it on" and "turn it off" Giving profiles of the best kind of men for healthy relationships Telling how to screen for married, abusive, emotionally dependent, rebounders, gold diggers, and noncommitting men Explaining how birth order and job type categorize a man's personality *Desirable Men* covers everything from reading the intent behind a man's gaze to using body language and lunch hours effectively. After this book, readers will forever stop blaming their singlehood on a lack of good men and they'll realize *desirable* men don't fall for a bunch of archaic rules.
