State Of Agricultural Commodity Markets: 2015-16

This edition of The State of Agricultural Commodity Markets aims to reduce the current polarization of views on the impacts of agricultural trade on food security and on the manner in which agricultural trade should be governed to ensure that increased trade openness is beneficial to all countries. By providing evidence and clarity on a range of topics, the report seeks to contribute to a more informed debate on policy choices and to identify required improvements in the policy processes within which these choices are made.
