Concert Lighting: The Art and Business of Entertainment Lighting James Moody, Paul Dexter

Concert Lighting: Tools, Techniques, Art, and Business Fourth Edition provides readers with an updated look at how to succeed in the complex world of concert lighting design and technology. The authors have reorganized the book into three comprehensive and thoroughly revised sections, covering history, equipment and technology, and design, and containing new information on LED technology, pixel mapping, projection options, media servers, automated lighting, solutions for moving lights, DMX, and Ethernet problems, and designer communication and collaboration. This book also explores the cross-media use of concert lighting techniques in film, video, theatre, and the corporate world, highlighted with advice from master designers such as Bruce Rodgers, Cosmo Wilson, and Sarah Landau. From securing precious contracts to knowing the best equipment to use to design a show, *Concert Lighting* covers everything a designer needs to know about working in the touring industry.
