There are few books available to prepare parents who want to raise children who are able to receive money and use it responsibly. The old ways of transferring assets to children and grandchildren-which rely solely on legal and tax advice-are not working. A whole new way of looking at this challenge is necessary. For Love & Money introduces a new paradigm, which the author calls the Integrated Wealth Transfer Process. This process is explained in detail in an easy to understand way that will enable families to learn how to discuss sensitive subjects openly and honestly, thereby reaching mutual consensus regarding the family mission and the management of family assets. Also included are two useful appendices: Succession Instruments and Recommended Additional Reading. Roy O. Williams is a recognized authority in the field of family coaching, and all of the information in this book was gathered during his work with families over the past thirty years.
