It uses cognitive therapy to empower the readers, and provides inspiration for the readers to take steps to establish healthier relationships. This book is written in a self-explanatory format so that the readers can figure out how codependency is developed and what codependency is all about at their own pace. It is written in question-and-answer format, so that all the pressing questions can be answered immediately. The readers can move on to the next step, once the immediate questions are answered. It is like a personal coaching session that energizes the readers to do something immediately once the light bulb is turned on by the inspiration. This motivates the readers to make changes in their lives once they have discovered what it is they can do to improve their relationships. By using this modular-learning format, the readers can read the book incrementally without any loss of continuity. Making these steps one-day-at-a-time, one-step-at-a-time so that the newfound knowledge may be integrated into real life, and then taken into action to achieve better life goals, can make progress. Making that progress is therapeutic, healing, energizing and empowering.
