Pokémon Go is a new app, recently released by Niantic Inc. It has become incredibly popular within just the first few weeks of its release. Its appeal may be due to a few key qualities of the game: it's nostalgic due to its similarities to the old Pokémon games and is innovative in the use of technology by utilizing GPS (Global Positioning Systems) to track where you are and AR (Augmented Reality) by using your camera to make it appear as if Pokémon are in front of you in the real world.
