The invasion has begun. An invasion not from the stars but from within our wombs. All over the world children are being born different. Their features are alien, their DNA isn't human, their loyalties are unknown. As scientists, spies, and regular citizens race to make sense of this new disease they find themselves asking the same question: Is this the first wave of an alien assault on Earth? Celebrated fiction author and bioterrorism expert Dominic Peloso weaves a complex tale of alien invasion, environmental catastrophe, and societal upheaval, in a world not too removed from our own. *Adopted Son* perfectly blends hard sci-fi with biting political and social commentary to create a truly modern literary masterpiece that transcends genres.
