This book is a salute to early American pattern glass table sets. With the picture quality herein, this book is not only for the new collector who is just being introduced to early American pattern glass, but also for those who have collected for years. You will find over 425 patterns made by such industry giants as U.S. Glass, Northwood, Cambridge, Heisey, Fostoria, and Indiana Glass. Our aim was for actual pictures of each pattern for easy identification plus a price guide and an index of cross references of the various names ascribed to the same pattern. Dates and colors made, reproduction information, and pertinent facts are included, as well as current collector values. Values are even given for items not shown in photos, in the event that readers own something not pictured in the book. This book also features dimensions of each piece shown, something not always available in previous references. Coordinated by Don Jones and Danny Cornelius. 2007 values.
