Friedrich Wilhelm Nietzsche

The complete works of Friedrich Nietzsche Friedrich Wilhelm Nietzsche

Nietzsche's essay, *Richard Wagner in Bayreuth*, appeared in 1876, and his next publication was his present work, which was issued in 1878. A comparison of the books will show that the two years of meditation intervening had brought about a great change in Nietzsche's views, his style of expressing them, and the form in which they were cast. The Dionysian, overflowing with life, gives way to an Apollonian thinker with a touch of pessimism. The long essay form is abandoned, and instead we have a series of aphorisms, some tinged with melancholy, others with satire, several, especially towards the end, with Nietzschean wit at its best, and a few at the beginning so very abstruse as to require careful study. Since the Bayreuth festivals of 1876, Nietzsche had gradually come to see Wagner as he really was. The ideal musician that Nietzsche had pictured in his own mind turned out to be nothing more than a rather dilettante philosopher, an opportunistic decadent with a suspicious tendency towards Christianity. The young philosopher thereupon proceeded to shake off the influence which the musician had exercised upon him.
