A gorilla shrewdly sells back a missing key chain to the highest bidder. An orangutan picks a lock to let himself out of his zoo enclosure and two elephants adopt a tag-team strategy to keep their handlers from putting them back into theirs. In **The Parrot's Lament**, noted environmentalist **Eugene Linden** offers more than one hundred true anecdotes about animal acts of cooperation, heroism, escape--even tales of deception or manipulation of human beings. Drawing on the first-person experiences of veterinarians, field biologists, researchers, and trainers, Linden has compiled a warmly entertaining and powerfully persuasive argument for animal consciousness that, while not human, far exceeds what humans usually grant animals. Scientifically sound and emotionally compelling, **The Parrot's Lament** contains remarkable stories that are sure to resonate with animal lovers, turning skeptics everywhere into believers.
