Deserts of Fire: Speculative Fiction and the Modern War

Deserts of Fire: Speculative Fiction and the Modern War

In 1987, the *New York Times* published their first front-page review of a science fiction anthology for a collection called *In the Field of Fire*, themed around the war in Vietnam. “Vietnam was science fiction,” the reviewer wrote, and writing about it through that lens found meaning in a war few understood.

This idea, that speculative fiction is a vital tool to understanding the inexplicable, is just as relevant nearly thirty years later. *Deserts of Fire* is a war-inspired anthology for the new millennium, because for many, the recent wars in the deserts of Iraq, Afghanistan, and the Middle East are just as slippery to grasp and difficult to understand as Vietnam was two generations earlier.

Inside *Deserts of Fire* are stories from a variety of bestselling and award-winning authors that start with the simple and modest ambition of making the reader feel strange about the recent past. Because when there are too many explanations, the truth won’t be found by merely choosing one side or the other. But rather, the truth is in the existence of the confusion itself.

Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a *New York Times* bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.
