## **Avian Evolution: The Fossil Record of Birds and its Paleobiological Significance (TOPA Topics in Paleobiology)** Gerald Mayr

Knowledge of the evolutionary history of birds has much improved in recent decades. Fossils from critical time periods are being described at unprecedented rates and modern phylogenetic analyses have provided a framework for the interrelationships of the extant groups. This book gives an overview of the avian fossil record and its paleobiological significance, and it is the only up-to-date textbook that covers both Mesozoic and more modern-type Cenozoic birds in some detail. The reader is introduced to key features of basal avians and the morphological transformations that have occurred in the evolution towards modern birds. An account of the Cenozoic fossil record sheds light on the biogeographic history of the extant avian groups and discusses fossils in the context of current phylogenetic hypotheses. This review of the evolutionary history of birds not only addresses students and established researchers, but it may also be a useful source of information for anyone else with an interest in the evolution of birds and a moderate background in biology and geology.

### **From reader reviews:**

#### **Amy Cason:**

Have you spare time for the day? What do you do when you have considerably more or little spare time? Yes, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a walk, shopping, or went to typically the Mall. How about open as well as read a book entitled Avian Evolution: The Fossil Record of Birds and its Paleobiological Significance (TOPA Topics in Paleobiology)? Maybe it is for being best activity for you. You already know beside you can spend your time along with your favorite's book, you can better than before. Do you agree with their opinion or you have different opinion?

#### **Dennis Boone:**

The actual book Avian Evolution: The Fossil Record of Birds and its Paleobiological Significance (TOPA Topics in Paleobiology) will bring you to the new experience of reading some sort of book. The author style to explain the idea is very unique. In case you try to find new book to study, this book very acceptable to you. The book Avian Evolution: The Fossil Record of Birds and its Paleobiological Significance (TOPA Topics in Paleobiology) is much recommended to you to learn. You can also get the e-book in the official web site, so you can easier to read the book.

#### **Leigh Grayer:**

Reading a guide tends to be new life style in this era globalization. With reading through you can get a lot of information which will give you benefit in your life. Along with book everyone in this world can share their idea. Publications can also inspire a lot of people. A lot of author can inspire their very own reader with their story or maybe their experience. Not only the storyline that share in the books. But also they write about advantage about something that you need instance. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors on this planet always try to improve their expertise in writing, they also doing some study before they write on their book. One of them is this Avian Evolution: The Fossil Record of Birds and its Paleobiological Significance (TOPA Topics in Paleobiology).

#### **Melvin Groth:**

Is it anyone who having spare time subsequently spend it whole day by simply watching television programs or just lying down on the bed? Do you need something totally new? This Avian Evolution: The Fossil Record of Birds and its Paleobiological Significance (TOPA Topics in Paleobiology) can be the solution, oh how comes? It's a book you know. You are consequently out of date, spending your extra time by reading in this brand-new era is common not a geek activity. So what these textbooks have than the others?
