Hi-tech, environmental compatibility and good design are no longer a contradiction in terms. In fact, they can complement one another splendidly. Business with nature and the number of Eco lodges on offer is huge. Often this type of accommodation is lacking in style. And yet, particularly travel in harmony with nature should be something that appeals to all our senses. The new book best designed ecological hotels shows how elegance, architecture and nature can be perfectly combined. It presents outstanding hotel architecture from its best side in the world's most fascinating locations. From a luxury complex on an isolated island to a clay resort in the desert to a bush lodge with eye contact with wild animals.
