In this gripping thriller, two men from the Northern Irish underworld are recruited by an enigmatic stranger for a shadowy operation. Promising to make them very rich without involving them in theft or murder, the job seems too good to be true; in fact, it seems to be barely a crime.

When Crawl and Kieran discover the identity of the man who has hired them for the break-in of the century, they realize they might be involving themselves in a high-stakes technological breakthrough. And they devise a scheme for demanding a bigger payout. As the law of unintended consequences kicks in, so do life-and-death consequences, not only for themselves, not only for many others, but for the whole world.
